

Characteristics

40-555 is a high build primer filler for isolating sanded-through areas with high filling power. High filling capacity, quick drying, good stability, good active corrosion protection, can be painted over with water-based paints. Suitable substrates: sanded and cleaned factory and old paintwork (except thermoplastic paintwork), steel, galvanized steel, aluminum, various plastics (e.g. hard PVC, PPO / PA, ABS, PC / PBT) and hardened 2K filler.
