

Q 40-575

Control Powder Black

Characteristics

40-575 is a solvent-free control black powder. After sanding light-colored fillers and primers, any remaining imperfections become visible. No clogging of the abrasive. Suitable for wet and dry sanding.

Physical Characteristics

60 Month

Application

Cleaning

Apply the control black powder evenly onto the dried filler using the application pad. Can be sanded immediately after application.

- No masking required
- Easy to use
- Not solvent based
- Complete coverage of the repair area
- No drying time required
- Immediate error detection
- No aerosol/spray gun required
- No risk of applicator clogging
- Perfect for wet or dry sanding

Storage

Store the product in a ventilated place. Keep away from direct exposure to sunlight.
Store in a cool and dry place.
